Participate without sharing your income information.

Some health plans have programs or benefit designs known as “accumulators” or “maximizers.” These programs divert patient assistance funds away from patients.

- Accumulators don’t allow patient assistance to count toward the patient’s deductible and out-of-pocket maximum until the maximum value of the patient assistance is reached.
- Maximizers also don’t allow patient assistance to count toward the patient’s deductible and out-of-pocket maximum. Maximizers apply the full value of the patient assistance over the year. This could be either the same amount each month or a larger amount early in the year that tapers off, without allowing any of those funds to count toward the patient’s annual deductible or out-of-pocket maximum.
- The J&J withMe Oral PAH Savings Program is designed solely for the benefit of the patient. Thus, Johnson & Johnson reserves the right to reduce the J&J withMe Oral PAH Savings Program maximum benefit for patients in an accumulator or maximizer program or benefit design, except where prohibited by law.

In addition, some health plans have “non-essential health benefit maximizers” that conflict with the program requirements of the J&J withMe Oral PAH Savings Program.

- These programs or benefit designs, like the services offered by SaveOnSP, classify certain specialty medicines such as OPSUMIT®, OPSYNVI®, UPTRAVI®, or TRACLEER® as “non-essential.” This takes away protections for patients provided by the Affordable Care Act (ACA) related to maximum out-of-pocket limits.
- The J&J withMe Oral PAH Savings Program is designed solely for the benefit of the patient. If your insurance company or health plan partners with SaveOnSP, then except where prohibited by law, you will not be eligible for, and you agree not to use, the J&J withMe Oral PAH Savings Program.
- Please let J&J withMe know if your insurance company or health plan has one of these programs or benefit designs, including SaveOnSP, by calling 866-228-3546 to discuss your options. Since you may not know you are subject to one of these programs or benefit designs when you enroll in J&J withMe, J&J will monitor your utilization.
- J&J reserves the right to discontinue cost support if you no longer meet eligibility requirements.
- If your health plan removes OPSUMIT®, OPSYNVI®, UPTRAVI®, or TRACLEER® from its partnership with SaveOnSP or other non-essential health benefit maximizer, you may be eligible to be reinstated in the J&J withMe Oral PAH Savings Program.

By utilizing this Savings Program, you accept and agree to abide by these program requirements. Any individual or entity who enrolls or assists in the enrollment of a patient in the Savings Program represents that the patient meets the eligibility criteria and other requirements described.
